CURES AND COMFORT FOR

THE BED-RIDDEN.

—BY—

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving

curing old sores, wounds, bad legs, ulcers and eruptions

of the skin; when rubbed on the surface it penetrates

and purifies each tissue on its passage, and exerts the

most wholesome influence over the internal structure

of the body by cleansing all animal fluids with which it comes

in contact, and thereby promotes a sound and permanent

cure.

Gout and Rheumatism.

Persons suffering from these painful affections should

use this Ointment with great advantage. Afternoon

application with warm water to the surface of the

limbs is most remarkable; it seems at once to lessen in

flammation, ease pain, reduce the swelling, restore natural

circulation, and expels the disease from the system

by cleaning the blood and purifying the system.

All Varieties of Skin Diseases, Scrofula and

Scurvy.

This Ointment is a certain cure for Ringworm, Scrofula

or King's Evil, and the most inveterate skin

diseases to which the human race is subject. They can

not be treated with a salve or more speedy remedy than

Holloway's Ointment, assisted by his celebrated Pills

which act upon the system and give relief

in all stages of Indigestion, Colic and

Bronchitis, this treatment may be followed with safety

and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and

Scurvy.

This Ointment is a certain cure for Ringworm, Scrofula

people of that country.

It is a rich and healthy food,

Wednesday Morning, June 23, 1869.

In great care we not taken, our new Governor will be exposed to the same Babel of tongues, expressing opinions diametrically opposed and enunciated with what would be under other circumstances, most commendable pertinacity that embittered the gubernatorial existence of our former rulers. It is of no use for those gentlemen who really represent large sections of the country to say that the views expressed by these loud-mouthed brawlers (who having acquired the gift of the gab in their infancy, have set up in life as public leaders and instructors with nothing but talk! talk! talk! for their capital) are absolute nonsense; since, if they were adopted in this Colony they would bring ruin upon thousands of our inhabitants. We have always advocated Confederation, but it is the Confederation such as was accepted by reasonable men;—the Confederation such as the Mother Country intends for us, and such as we can obtain if we eschew talking machines. Our citizens must be careful not to allow themselves to be deceived by such people as we have described above; their prime object is to get a public opportunity of airing their fancied eloquence. In giving countenance to these men they weaken their influence with those whom it is their interest to impress with respect for their opinions. We have had plenty of stupid, senseless spouting, which has been more or less the cause of misfortune. Our present duty is to weigh materially the arguments, *pro* and *con*, for a Free Port with Confederation. We have the views of our Farmers very clearly expressed against it; it now only remains for our Merchants to meet at the Chamber of Commerce and show, by facts and figures, set forth in such a form as can be understood by the public, that the Free Port system has advantages sufficient to counterbalance all that can be advanced against it. Mere declamation will never accomplish that object; the public requires more palpable evidence, and that can alone be produced by means of facts and figures. We stated, a few days ago, that we did not believe a Free Port with Confederation attainable. We based that opinion upon the quite recent failure of Nova Scotia to obtain certain modifications in the Dominion Tariff, which bears unfavorably upon certain of the products by that province. If the angry mutterings of 400,000 people failed to cause the Ottawa Government to quake in its shoes, and concede all it was asked to concede, how could the prayers, entreaties or threats of our 10,000 Colonists avail ought in obtaining exclusive privileges for us? In this view we may be mistaken; but as a consistent supporter of Free Trade for many years, we warn the merchants of Victoria against being misled by sophistry. In former years our political horizon was obscured by the obtrusion of political quacks, and injury was inflicted upon the Colony from which it still suffers. Are the miserable results of the "delegation" to England so soon forgotten that the people of this Colony are again found meekly twiddling their thumbs while "feckless" politicians, who have failed in all they ever undertook to accomplish, and who before now have involved in common ruin themselves and the communities that harbored them, are weaving a web of sophistry in which they hope to entangle the business men of this Colony? We must be excused if we speak out plainly; but some of the pretended friends of Free Port to-day are precisely those who would for self support the most absurd Protection to-morrow. It is against this class of politicians that we again warn the merchants of Victoria. The fact that they favor Free Port is sufficient of itself to damage the cause with thinking men; hence the absolute necessity for careful consideration by the Chamber of Commerce, that gentlemen may give the subject the careful attention it deserves; and examined by our merchants, who are certainly not inferior to any similar class in the world, we shall be able to arrive at a conclusion on such an important subject, as its paramount influence for weal or woe on this community would be likely to produce.

The Future of Halifax—A Rival to New York on the Atlantic.

The Chicago Tribune notes a project for shortening the time between San Francisco and Europe to twelve days. A few years ago that period was reckoned a swift passage for steamers from

New York to Liverpool. The transit between those cities is now made on the average, in ten days—sometimes in nine. It seems the principal part of this time is occupied in the voyage from New York to Cape Race, where the winds and waves are apt to be adverse. The project referred to proposes to dispense with this part of the ocean voyage, by building a railroad through New England, Nova Scotia and Newfoundland to St. John's, 60 miles above Cape Race and 1,070 miles from New York. The latter distance is thus saved and the ocean voyage between St. John's and Queenstown, Ireland (1,600 miles), can be accomplished in four days. The railroad across Newfoundland is to be joined by a steam ferry of 45 miles with the north end of Cape Breton Island, where it connects with a trunk line which skirts the Bay of Fundy, and passes by way of St. John's, New Brunswick, and Bangor, Maine, to Portland, and thence by a very direct route through Rutland, Vermont, to Rome, on the New York Central. By this route Chicago expects to be only eight days from Liverpool—nearer than New York by two days on the average. The whole line from San Francisco comprises nearly 5,000 miles of railway. With perfect arrangements, speed may be attained which will reach Liverpool, or even London, in twelve days from San Francisco. If the project is carried out, this route will become in a short time the highway for Asiatic travel. Passengers may even go from New York to Portland to escape the five or six days extra voyage on the worst part of the ocean route. What a splendid future awaits Halifax the western terminus of the route, with New York given the "go-by."

Canadian Mail Summary.

[DATES TO JUNE 5TH.]

OTTAWA, May 26.—The resolutions respecting the acquisition of the Hudson's Bay Territory, &c., to be proposed on Friday, were distributed this evening. They are a recital of the negotiations already published and conclude by resolving,—That it is expedient to address Her Majesty that she will be graciously pleased, by and with the advice of Her Most Honorable Privy Council, under the 14th clause of the provisions of the Imperial Acts 31 and 32 Vic. cap. 105, to unite Rupert's Land on the terms and conditions expressed in the foregoing resolutions, and also to unite the Northwest Territory with the Dominion of Canada as prayed for by and on the terms and conditions contained in the joint address of the Senate and House of Commons of Canada adopted during the first session of the first Parliament of Canada, and herein before referred to. That upon the transference of the territory in question to the Canadian Government it will be the duty of the Government to make adequate provision for the protection of the Indian tribes whose interests and well being are involved in the transfer,—That the Governor in Council be authorized and empowered to arrange any details that may be necessary to carry out the terms and conditions of above agreement.

The opposition Canadian papers profess to see in Mr. Rose's banking scheme a huge fraud, a plan to take possession of \$10,000,000 or \$12,000,000 of banking capital; and to spend this money to meet the necessities of his Government, on the plea that he does it for the security of the people. The friends of the Government, on the other hand, warmly favor the scheme.

OTTAWA, May 26, 1869.—Delegates from Newfoundland are to day arranging details of admission of that Colony into the Dominion. Financial portion of arrangement in hands of Messrs. Tilley and Rose. It is not expected that much discussion will take place in Parliament on this question, on the North West. Session will likely close by 20th of June. Mayor to succeed late Mr. Friel will be elected from among aldermen to-morrow; J. Rochester is likely to be the man.

OTTAWA, 25th.—American Consul-General Dart, and U. S. Consul at Hamilton had seats on the floor of the House this p. m. It is expected that arrangements will be arrived at, before direct communication with England, to permit those gentlemen to assume their respective duties.

The Newfoundland delegates will meet the members of the Government of Canada. Mr. Dawson's report of the line of route between Lake Superior and the Red River settlement was distributed to-day. Accompanying the report is a map of the North-west territory.

It is understood that Mr. Burrows has been recommended by the Minister of Justice to the office of County Judge at Frontenac, and that Mr. Wilkinson is spoken of for the Judgeship of Lennox and Addington.

TORONTO, 25th.—A sad accident occurred yesterday, which passed almost unnoticed amongst the day's amusements. Three lads were out boating when the boat capsized, and all were thrown into the Lake and two drowned. The third was saved by clinging to the boat. The bodies have not yet been recovered.

The Algoma left Collingwood to-day on her second trip for Lake Superior. She has on board a number of explorers for Fort William accompanied by Professor Bell of the Montreal Geological Survey, and a party of ten.

The Globe comes out strongly against

Mr. King, of the Bank of Montreal, and the Government. Mr. King and the Government have set themselves to strike down all other banks. He hopes to create an institution which would control the money market of the Dominion. Such an institution would be dangerous to liberty and prosperity. Notwithstanding these assaults, hostility to Mr. Rose's scheme seems to be diminishing, and much less dislike to the change is expressed than before the measure was proposed.

Great excitement was created in Toronto by the stoppage of the Royal Canadian Bank—for though it has been very well known in the city that the Bank has been sorely pressed for some weeks past, few entertained fears that it would be compelled to succumb under its difficulties. It is not to be denied that the troubles of the Bank are originally traceable to the incapacity of its officers and Directors and the hostile feelings that have constantly existed between parties having seats at the Board of Directors. This, however, might have been easily overcome, and would almost certainly have been overcome, at the approaching annual meeting of the Stockholders, by a radical change in the management, and the election of competent parties in the room of the present men.

Notwithstanding the errors of its management, the Bank had, on the 1st March last available cash items on hand to the amount of \$1,273,593, and 3,208,105 of bills under discount—to meet a total liability of 3,146,058. The process of depletion has been going on slowly but steadily for two months past—and it is instructive to notice how it operated on the position of the bank.

Judge John Wilson, of London, Canada West died on the 1st of June.

It is reported that Mr. O'Reilly, Q. C., has received \$10,000 from the Dominion Government for his services in connection with the prosecution of Whelan.

QUEBEC, June 1st.—A ship with Germans is detained at quarantine, having small-pox and measles on board. Passengers refused to land, and police had to be sent to force them.

Intelligence from Rimouski reports the turning of the first sod of section No. 5, Intercolonial railway.

The European brought 1,078 steerage passengers; the North American, 765; and the Ibernia, 513; steerage.

Total this season, 12,318.

The high steward at the Winter Palace in St. Petersburg is said to be an illegitimate son of the Emperor Nicholas. He is as tall as his imperial father was, and a much finer looking man than the Czar Alexander.

During the past year six attempts have been made to assassinate Victor Emanuel. He is especially afraid lest poisoned dishes should be served to him at the dinner table. As public dinners the King has not recently touched any food, and the wine which he drinks there is taken from his own cellar.

WALTHAM

WATCHES.

The extensive use of these watches for the last fifteen years by Railway Conductors, Engineers, and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these timekeepers.

The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches, COMBINING THE BEST AND LATEST IMPROVEMENT, and at a price which renders competition futile, and those who buy any other watch, merely pay from 25 to 50 per cent. more for their watches than is necessary. For sale by all dealers.

No watches retailed by the Company.

The Total Eclipse of the Sun—The
Scientific Expeditions to Alaska.

Professor Davidson and party touched here on Monday, on their way to Alaska, with chronometers, chronograph apparatus, equatorial telescope and a meridian instrument constructed by Professor Davidson and constructed by the Coast Survey especially for this expedition. The object of the expedition [which is fitted out by the United States Government] is for the determination of the longitude of some point within the Territory of Alaska where the totality of the solar eclipse of August 7th will be central. At the same time every effort will be made to observe all the physical phenomena visible to the eye only upon such rare occasions. The total eclipse of last August, as observed in India, was the occasion for remarkable discoveries in comical phenomena, and of improvement in the means of observation in spectrum analysis. The San Francisco *Alta* of the 13th inst., speaking of the expedition, says the party will take canoes at Sitka to the Chilkah River, in latitude 59° 15', at the head of Chatham Strait. The river will be followed until a position is found on the path of central totality. The Indian tribe of the Chilkah numbers in all about two thousand souls, and some trouble may be experienced in dealing with them and penetrating their country; but General Davis has already actively interested himself with the Chief, and it is believed that his well known decision of character and honesty of purpose have prevailed.

On the Chilkah the party expects to reach some point 3,000 feet above the sea, and to be beyond the reach of the sea coast fog. The great St. Elias Mountain range bordering the coast 100 miles west of them will give some advantages of weather. It would be cruel to suggest the possibility of bad weather.

The party is small, numbering only six persons—almost too small for such an undertaking—but the leader, Professor Davidson, was at the mouth of the Chilkah, in charge of the scientific expedition of 1857, and appears less anxious about the Indians than the weather. His assistant is S. R. Throckmorton, Jr., aid in the Coast Survey.

In addition to Professor Davidson, Asaph Hall, United States Naval Observatory, left Washington, on the 19th instant, for New York, with his instruments, and will sail from thence to San Francisco, where a Government steamer will be ready to convey him and party to Norton Sound, Alaska, for the purpose of making observations at the beginning of the line of totality of the eclipse. It is said, too, that English, German and French scientific expeditions are on the way with the same object in view.

Court of Assize.

Before Chief Justice Needham.

Tuesday, June 22 1869.

THE BARCLAY SOUND MURDER.

Regina vs. Kalkina—The prisoner was arraigned for trial on an indictment charging him with causing the death of one of the crew of the wrecked bark John Bright, at Barclay Sound, on the twelfth of February last.

The prisoner, when called on to plead through an interpreter said, "I shot the man. He was coming ashore from the wreck. I went to help him. He shook his head at me and then I shot him." The prisoner was removed.

Regina vs. Anti-chee-chest—A new jury was empaneled to try Anti-chee-chest, indicted for the murder of a female belonging to the wrecked bark John Bright.

It will be remembered that the trial of this man was adjourned to await the return of Dr. Comrie, Surgeon of H.M.S. Sparrowhawk, who was absent on the North coast, in attendance upon the late Governor. The Attorney-General stated the circumstances of Dr. Comrie's absence and the Chief Justice accepted the apology.

The prisoner, Anti-chee-chest, in the most emphatic manner, pleaded not guilty.

The Attorney-General appeared for the prosecution and Mr. Wood for the defence. The entire afternoon was consumed in the examination of an Indian witness who swore he saw the prisoner shoot the woman.

At half past four o'clock the Court adjourned till 11 o'clock this morning.

The Boy Brown—This minute specimen of neglected humanity was again brought up yesterday, the man called his father having been produced in court. This "found" patient declared himself perfectly prepared to allow the court to make a prime minister or prime minister of his son, as it might think meet; but Mr. Pemberton objected to the parental obligations being so lightly esteemed and convicted Brown, sen, that his responsibility was in nowise reduced because the juvenile was afflicted with kleptomania. The court placed the son in custody of his father, who was bound over to produce him in one week and report on his conduct.

Case of Assault—A young man was charged before Mr. Pemberton yesterday by a native of the Celestial Empire with an wicked assault. After a very patient hearing of a number of witnesses, whose evidence was at variance, the magistrate discharged the accused. Mr. Bishop defended.

A NATIVE INDIAN, who could not give a very clear account of his transactions in this city, was discharged with a recommendation to apply his talents to the useful arts, if he concluded to honor this vicinity with his presence.

In a recent lecture at San Francisco, Flatulent Train, Esq., stated that he could not visit Portland because of a pressing business engagement at the East. What, then, has become of George's Fenian army that he was going to lead to the conquest of Vancouver Island? It is evident that Train finds the geographical position of Portland inconveniently near British Columbia, and fears that should he visit that city his believers will push him over the boundary line and force him to make good his warlike words. Train may be mad, but there is a good deal of method in his madness—especially when he charges \$1. admission money to his lectures.

St. John's Day—To-morrow the Anniversary of the birth of St. John, will be duly observed by the Masonic fraternity. The various Lodges will attend divine service at Christ Cathedral at 9 a. m., and at 12:30 o'clock will embark on the steamer Enterprise for an excursion to San Juan Island. A large number of ladies and gentlemen will join in the excursion, which is not confined to the Masonic Fraternity, but includes the friends of that ancient and honorable order.

PETITION PRESENTED—Yesterday morning, a deputation of citizens, headed by the two City members—Messrs. Helmcken and Drake—waited on the Administrator of the Government and presented a memorial signed by upwards of 600 citizens praying for the pardon of Mr. White, the mate of the Alaska. The Administrator received the deputation courteously, and promised to give the memorial his earnest attention, and return an answer in the course of a day or two.

The New York Nation proposes to do away with the names British and American, as at present applied, and substitute Anglo-Saxon as the name for the race that rules Great Britain and Ireland, the American Union, India, Australia, and the Dominion of Canada, and to adopt as descriptive words, English, Anglo-Indian and American. We suspect the British race would not take kindly to such a startling innovation.

ASCENT OF MOUNT RANIER—General McKinney, Indian Superintendent of Washington Territory, is organizing a party to attempt the ascent of Mount Ranier, the Mount Blanco of the Pacific, and has invited our townsman E. T. Coleman, Esq., who "did" Mount Baker last summer, to accompany the expedition. Mr. Coleman, we learn has accepted the invitation and will leave to-day for Olympia. En route he will deliver a lecture before the Good Templars of Port Townsend.

DRUNKARDS in Illinois are likely to have a hard time. The new law classes them as insane persons and idiots, and places them under the care of guardians or overseers of the poor, and when a man has been declared a habitual drunkard, he has no remedy from guardianship until a year has elapsed.

A FEMALE Blondin, walking a tight rope at Bolton, in England, fell sixty feet, but the fall was broken partly by another rope, and partly by the crowd which caught her, who found, with deep disgust, that she remained alive.

CREDIT SALE—We would direct public attention to the Credit Sale of Mr. Lumley Franklin, to-day, commencing at 11 o'clock. The assortment comprises a fine lot of ale, porter, stout, brandy, champagne, sherry, groceries, &c., selected by Messrs. Sprout & Co. for this market. The credit is most liberal.

CORONATION DAY—The only affair on the cards for Monday next is the St. John's Sunday School Pic-nic. The ladies and gentlemen who have taken the excursion in hand are making every exertion to insure pleasure and comfort to the participants, and we predict a most enjoyable day.

PANTHERS and wolves are slaughtering the innocent young stock in Metochino district with ruthless vengeance. A number of young lambs have been missed from the folds of late, and a dozen or so of their fierce destroyers have been flushed by strychnine or the rifle bullets of the settlers.

THE Royal Canadian bills are selling in Toronto at 90s and over. Many different opinions are expressed as to the probability of resuming business, but there is scarcely any doubt that the resumption is earnestly desired. It is said that exertions are being made to effect it.

THE will of Governor Seymour was admitted to probate to-day, the personality in this Colony being set down at \$60,000. The tenor of the will was published in these columns some days ago.

THE GRAND JURY have been summoned to meet to-day at 1 o'clock, to take into consideration the indictment of George Williams, a supposed lunatic, who has been committed to stand his trial for larceny.

THE DRY SPELL—The Oregon farmers are suffering severely from the drought, and the papers predict very short crops. Over the Sound the strawberries have given out entirely, and crops will be short.

DEATH—At the Royal Hospital, yesterday, John Hall, aged 34 years, native of Athens, State of Maine, died of dysentery.

BUY IT AND TRY IT—Russell's celebrated coffee. The best on the Coast. Warranted a pure and healthful beverage.

FELL'S COFFEE has become the favorite Colonial beverage, and is to be found on every breakfast table from Victoria to the foot of the Rocky Mountains.

CHEAP SHAVING—Having recovered his health, Fred Payne's shop is again open to the public. Prices as before.

Look on this Picture and on That.

EDITOR BRITISH COLONIST—That the mercantile class may not be misled by the dishonest attempt of your morning contemporary to entrap them into Confederation negotiations under the pretence that they will obtain thereby a Free Port I beg your permission to publish in juxtaposition the following two paragraphs. After reading them I fancy the people of Victoria will be ready to exclaim of the *Columbian*, as the jilted girl in the ballad exclaims of her heartless lover—"Trust him not, he's fooling thee."

ANTI-HUMBOLDT.

From the *BRITISH COLONIST* of June 21, 1869. We believe it to be of the very first importance that the people of Victoria should be made aware of the true position of affairs in the Pacific. The *Columbian* of June 21, 1869, contains a long and elaborate article in which it is stated that the British Government has decided to withdraw its troops from the Pacific coast of North America. This article is a gross misstatement of the facts, and is calculated to create a panic among the people of Victoria. The British Government has no intention of withdrawing its troops from the Pacific coast of North America. The troops are there to protect the British interests in the Pacific, and to maintain the peace and order of the region. The *Columbian* article is a gross misstatement of the facts, and is calculated to create a panic among the people of Victoria.

The Rosalia Case—Card from the
Foreman of the Jury.

EDITOR BRITISH COLONIST—My attention having been drawn to a paragraph in your paper of this morning, reflecting on me as foreman in the case of Dussol vs. B. O. & V. I. Spar, a Lumber and Sawmill Company, in not giving the verdict of six of the Jury, I beg to inform you that when the Jurors entered the box at 9 o'clock p. m., I stated that the verdict was for the defendants, and in addition read from my note book, "that the captain of the Isabel was not guilty of negligence, and did not cause the loss of the Rosalia." The object of the Jury in bringing the 'captain of the Isabel' into the verdict was to make the case for the defendants more marked.

I would also make one further remark, that the Jury paid every attention to the case, and believe themselves as capable as the Chief Justice himself in deciding a case where it is one of facts, and whatever opinion may be held to the contrary, our own consciences will acquit us, and I am certain that the country will sustain us, being well aware that we were actuated by honest and upright principles.

JOHN RUSSELL.

SPRINGFIELD, E. quimet Road,
June 22nd, 1869.

Free Port.

EDITOR BRITISH COLONIST—Your contemporary, I see, claims to be the original champion of Free Port! As such, I wish to address him a simple question: Is the Free Port to be restricted to Victoria City alone; if not, what are to be its limits? I put this question because, having read his articles upon the subject attentively, he has at last led me into such a muddle of ideas that I am at a loss to know what he is driving at.

Yours, in doubt,

INQUIRER.

An Anti-English Philippic.

In the Presbyterian Assembly, New School New York, May 31st, the following remarks were made:

Dr. Souderland, of Washington, said it appeared that a paper was passed last week by the other Assembly and sent here to be passed. He did not object to the resolution simply because it might seem to be meddling with those things outside of their legitimate scope and sphere. It appeared on the face of the resolution that they allowed the American Government was as much to blame as that of Great Britain, and they should be cautious in putting it before the world in that aspect. He believed that in the present state of the world war sometimes is a direful necessity, and it must be gone through with. With reference to this country and Great Britain, he said that while the American people were drunk with the wine of slavery the rods of God's wrath were laid upon them, and he believed, as we had taken our dose, England ought to have here. He believed it would serve England right to get a good drubbing from some one. Who does not know that in all the history of the past, England has been the greatest robber and pirate in the world? Who does not know that she exhibited the greatest cruelty in her own rebellion in India, where she blew the unfortunate Sepoys from the mouths of her guns? And look at Ireland. There she stands to-day a living monument of the greatest tyranny and oppression ever perpetrated in the civilized world. We are appealed to by our own greatness, by our great living and noble dead, not to permit this bitterness and controversy to exist between the two countries. It is my honest conviction that if anything should happen to impair this country to-day nine-tenths of the English people would help it on and be glad of our misfortunes. Where was our Nelson when the *Alabama* was fitted out in an English port and sent out on the broad sea to prey like a wolf on our commerce? If England shall never be willing to do us justice—shall never take away that sense of injury which every loyal man in America feels, and if we are not disposed to make her do us justice by force, there is one thing that is certain, that the reason why England did not recognize the south was that one fine morning the *Monitor* appeared in Hampton Roads, and from that hour we heard no more of Southern recognition. When we have our own affairs properly settled let the aristocracy of England tremble. We will avenge ourselves. Though it may not be a war of blood it will be a war of principles and ideas, and will scatter the aristocracy of England, which had always been the breakwater to progress and freedom, to the four winds of heaven.

It is of the utmost importance that there be shade trees in pastures. Certain trees like elms, maples, basswood or lindens, willows, etc., interfere with the growth of the grass or crops, their roots rising near the surface. Hickories, oaks, pepperidge and beeches send their roots deep, and grass grows well in the shade. Still we would not cut down the former class. Cows give milk better the more still and quiet they are, and cool shade contributes essentially to their comfort. Cattle will soon fill themselves if the pasture is good; then they want shade to chew their cuds under the trees and do proportionately better for it.

DELAYED DISPATCHES

LONDON, June 7.—All the tribes on the Russian Asia frontier, and all the bands called Quolotes, East of Orenberg and North of the Caspian sea, have engaged in an uprising against the authorities of the Government. Isolated posts and frontier villages have been burned, several villages in the interior have been pillaged, and several convoys have been attacked.

ST. PETERSBURG, June 8.—Despatches from the Government of Tomsk announce that a serious insurrection has broken out among the Kirghes, in the northern part of Turkistan. It extends through all the borders, and is rapidly increasing in importance. The Russian officials have either been massacred or forced to fly. Energetic measures are being taken by the Government, and a large force of Cossacks, with a number of light batteries, are being concentrated under the command of Ratsoulowsky.

WASHINGTON, June 8.—There is considerable talk in diplomatic circles relative to the treatment of the British Minister at the Navy Ball at Annapolis, on the recent graduation day. No proper provision was made for dining, nor was an invitation to supper included in the note to the British Minister. The comments ran upon the question whether the slight was intentional. Minister Thomson was chagrined at the arrangements and other Ministers declined attending at the ball on account of the slur or neglect put upon the representative of England.

European Mail Summary.

The Leipzig publishers sold, in 1868, \$10,000,000 worth of books.

The new French twenty-five franc gold pieces will be called Empereurs.

Mint julep is now known in Paris as the *grog American aux fines herbes*.

Here is a characteristic mot of a French mother-in-law: "What affords me pleasure in the death of my little grandson is the grief which it will cause to my son-in-law."

The Augusta (Ga.) *Chronicle* says that Mrs. Addins, wife of the State Senator recently assassinated, has been arrested on the charge of being concerned in the murder of her husband.

Anna Arnold, sister of an inn-keeper at Wilton, Lucerne, Switzerland, has just carried off the first prize at a ride about in that town, having made a "white" with every shot.

The signboard of a tavern near Strasburg, France, bears the following inscription: "Strong beer and wine of the first quality. Custom drinking more than twelve glasses will be sent home in a cab, free of charge in case they are unable to walk."

Mr. Chaplin, the late turbot, and the new Tory star in the House of Commons, is one of the richest men in England, and an intimate friend of Tennyson. The woman who jilted him in order to become the wife of the Marquis of Hesse is at present a widow in somewhat reduced circumstances.

Mr. and Mrs. Gladstone, while out riding recently, narrowly escaped a bad accident. The lady is represented as speaking thus of the occurrence: "I never thought of William, I never thought of myself, I never thought of my children. I only thought, what on earth will become of the bill relating to the Irish Church?"

Elections in Hungary are a very bloody business. During a bloody battle in 1848, a Hungarian General remarked to an old Hovved: "I-day things are rather hot." "Bah," replied the Hovved, "that is nothing; I wish you had witnessed the fight we had at Bihar in 1843, when we elected members of the Legislature."

Australia.

We have dates from Melbourne to the 29th of March.

The Duke of Edinburgh was in Sydney, receiving the homage of the people. He was about to sail for New Zealand.

The accounts from the grazing districts of Victoria are very discouraging. Great numbers of sheep were dying of starvation.

Madame Anna Bishop was to give her first concert in Melbourne on the 29th of March.

Hussey Kelly and Holly, negro minstrels from California, have formed a combination with Buckley, Hammond and Peel, from New York, and were about to visit the mining towns.

The Melbourne *Argus* says. Particulars of the yield of wheat in South Australia have reached us, and although the crop was not a truly good one, still the total produce was more than double that of last year, or 5,165,221 bushels, compared with 2,573,894 for 1867-8. The average varied greatly in different counties and districts, from 6 35 to 20 bushels to the acre, but the general average over the whole colony was 9.40.

CHINA—The Shanghai *News Letter* has the following paragraph: "Some Catholic Priests, lately arrived at Hankow from the North, report the Mahomedan R. bels in strong force on the road to Pekin, and from knowledge of this new movement against the Imperial Government, they predict the fall of Celestial Empire within the year!"

IMPORTANT CAUTION—The unprecedented success of Rowlands' Macassar Oil during the last half century in promoting the growth, restoring and beautifying the human hair, has caused imitators to spring up in every possible variety; some so far copy the label as frequently to deceive the unwary; some offer to dispose of the recipe of a Macassar Oil (omitting Rowlands' name), with other recipes of a similar character for a few postage stamps, whilst others profess to manufacture the real (f) article at a considerably reduced price, if the public will only purchase it. Indeed, the name of these wretched purveyors from cheap and trashy receipt books is "Legion" and calls for more than usual care on the part of the purchasers in their selection of articles for the toilet. Messrs. Rowlands have complaints repeatedly from parties who have materially suffered from the use of these trashy compounds; and to frustrate to some extent such impostures, purchasers should see that Rowlands' name is on the wrapper of each bottle.

—Daily Telegraph.

LIVER COMPLAINT is a disease much talked about and but little understood. Properly speaking, every derangement of the liver or bilious system, is a liver complaint. It is generally preceded or attended by costiveness, or flatulence, or costiveness or diarrhoea prevails. The coarse particles of bile become more or less mixed with the blood, and obstruct the pores of the skin and small blood vessels giving rise to various diseases of the skin, such as erysipelas, itching, blotches, pimples, boils, sore eyes, and sores and ulcers of various kinds. Dr. Walker's Vegetable Vinegar Bitters can be safely recommended as a safe and certain cure, as well as preventive, for this class of ill.

The True Medical Doctrine.

Nature when struggling with disease, indicates unmistakably the kind of assistance she requires. In cases of nervous weakness and general debility, the feeble pulse, the lack-lustre eye, the attenuated frame, the flaccid muscles, the melancholy visage, inform us as plainly as if each organ had a tongue, that a *medicated stimulant* is needed. It does not require the aid of a medical education to understand this dumb appeal for new vigor, from an exhausted system. Every reader of these lines can comprehend it just as well as the graduate of a physicians' college. Let not this demand of enfeebled nature be neglected. Respond to it promptly by commencing a course of *HOPKINS'S STOMACH BITTERS*, a preparation uniting, in their highest excellence the properties of a stimulant, an invigorant and an alterative. Before three days have elapsed, from the taking of the first dose, a beneficial change will be manifest in bodily and mental condition of the patient. The pulse will be stronger and more regular, the eye will begin to lose its dull expression, the muscular and nervous systems to recover their tension, and the spirits to improve. Persevere and a complete revivification of the depressed animal and mental powers is certain. In cases of dyspepsia and biliousness, the same salutary results will be obtained. The appetite will revive, the sallowness of the skin disappear, and all the distressing symptoms which accompany disorders of the stomach and liver will rapidly subside. The cold of winter often intensifies these complaints by checking the perspiratory action, by which so much morbid matter is evaporated through the pores in milder weather, and therefore the BITTERS are especially useful to the dyspeptic and at this season.

MINIATURE PORTRAITS. For 3/600, 1/188 or LOCKETS (colored or plain) for which this Gallery has always been celebrated.

THE SOLAR CAMERA. Belonging to this Gallery, is admitted to be unsurpassed for making large sized Pictures, true to life. A large and splendid collection of Negatives, from which Cartes may be obtained at a great reduction on the present prices.

J. AUGUSTUS CRAIGG.

WALTHAM
WATCHES.

The extensive use of these watches for the last fifteen years by Railway Conductors, Engineers, and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these time-keepers.

More than 400,000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over others.

The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches at a price which renders competition futile, and those who buy any other watch merely pay from 25 to 50 per cent. more for their watches than is necessary.

We are now selling Waltham Watches at less prices in greenbacks, than the gold prices before the war. There is no other manufacture of any kind in the United States of which this can be said.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watchmaking originating in this country, or in Europe, only those were finally adopted which severe testing by the most skillful artisans in our works, and long use on the part of the public, demonstrated to be essential to correct and enduring time-keeping.

Among the many improvements we would particularize:

The invention and use of a centre-pinion peculiar construction, to prevent damage to the train by the breakage of main springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's Patent pinion as being the best and faultless.

Hardened and tempered hair-springs, now universally admitted by Watchmakers to be the best, are used in all grades of Waltham Watches.

All Waltham Watches have dust-proof cap protecting the movement from dust, and lessening the necessity of the frequent cleaning necessary in other watches.

Our new patent stem-winder, or keyless watch, is already a decided success and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the public.

TO CALIFORNIANS and others living in portions of the United States where watch-makers do not abound, watches with the above mentioned improvements which tend to insure accuracy, cleanliness, durability and convenience, must prove invaluable.

Every watch bearing the trade mark of Waltham, is guaranteed to be a thoroughly reliable timekeeper.

To prevent imposition, buyers should invariably demand a certificate of genuineness.

The trade supplied by Messrs. R. B. Gray & Co., San Francisco, Cal., and generally for sale at retail by all respectable dealers.

Medical.

French Medicines.

PREPARED BY
GRIMAULT & CO.
Chemists to H.H. Prince Napoleon

PARIS.

These different medicines represent the most recent medical progress, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated, and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to a few, and are the result of the most profound laws of the human body. The most important preparations, and only those which have undergone an examination by the Academy of Medicine and have been proved efficacious either in the hospital or in the practice of the first medical men, are authorized by the Government. This fact must be a guarantee for the excellence of Messrs. Grimault & Co.'s medicines.

DOCTOR LERAS'

(Doctor of Medicine.)
LIQUID PHOSPHATE OF IRON.
The newest and most esteemed medicine in cases of: Chlorosis, Pains in the Stomach, Difficult Digestion, Diarrhoea, Anemia, General Debility and Poverty of Blood. It is prescribed by the Faculty of Medicine to regulate the functions of nature, and to all kinds of delicate constitution, as well as to persons suffering under every kind of debility what ever. It is the most powerful of health purgatives, in all warm and relaxing climates.

NO MORE COD LIVER OIL!

Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for Cod Liver Oil, and has been found most beneficial in Diseases of the Chest, Scrophulous, Lymphatic Disorders, Green Sickness, Muscular Atrophy, and Loss of Appetite. It regenerates the constitution in purifying the blood, it is a powerful and delicate purgative. It has also been applied with happy results in Diseases of the Skin. Further, it will be found to be of great benefit to young children subject to Humors and Obstructions of the Glands.

CONSUMPTION CURED!

Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of Consumption and other Diseases of the Lungs. It promptly removes the most serious symptoms in Consumption, night perspirations, cough, and the patient is rapidly restored to health. N.B.—Be sure to see that the signature of Grimault & Co. is affixed to the bottle, as this Syrup is liable to imitations.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DU BUISSON'S

(Laureate of the Paris Imperial Academy of Medicine)

DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangement of the digestive organs, such as:

Constipation, Gastralgia, Long and Laborious Digestion, Wind in the Stomach and Bowels, Nausea, Jaundice, and Complaints of the Liver & Lungs

NERVOUS HEADACHE NEURALGIA, DIARRHOEA, DYSENTERY, INSTANTLY CURED BY

Grimault's Guarana.

This vegetable substance, which grows in the Brazil has been employed since time immemorial to cure Inflammation of the Bowels. It has proved to be of the greatest service in cases of Cholera, as it is a preventive and a cure in cases of Diarrhoea.

GRIMAULT & Co.'s

Syrup of Ferruginous Peruvian Bark.

This preparation has the great advantage of combining two most powerful tonics known in the medical world. It is perfectly palatable and agreeable taste, this Syrup is taken with pleasure and with the most delicate stomachs. It is particularly employed in the treatment of Chlorosis, Anemia, Pale Complexion, Gastralgia, Whites, Leucorrhoea, Debility, Want of Appetite, Poverty of Blood, &c.

NO MORE DYSENTERIA, Vomiting during Pregnancy, or Sea Sickness.

GRIMAULT'S ELIXIR OF PEPSINE.

Pepsine undergoes no alteration in this delicious preparation. It will consequently be preferred to Pepsine Powder or Pills. It is the digestive medicine par excellence and is at the same time most agreeable taste liquor.

Messrs. Grimault beg to call the attention of the Faculty and the public in general to the fact that real Pepsine is prepared in France alone. It is far superior to all others often extracted from the stomach of porci.

NO MORE COPAIBA OR CUBEBS!

Grimault's Capsules and Liquid Extract of Matico Vegetalis.

Where all other preparations have failed these preparations will always effect a cure. These tansure rapid and extraordinary cures of severe recent and chronic cases of gonorrhea, and in the treatment of the gonorrhea, as they are by the celebrated Dr. Ricord, and found greatly superior to all other known mineral remedies and Copal and Cubebs. The injection is used in recent, and capsules in more chronic cases.

SYRUP AND LOZENGES OF SAP OF SEA PINE.

Prepared by Laguesse, Chemist, at Bordeaux, possesses the Balsamic and Resinous Properties of the Sea Pine. It is employed with success against affections of the Chest, Cold, Bronchitis, Catarrh, Asthma, Influenza, Hooping Cough, &c.

In Victoria—Messrs. LANGLEY & CO.

Groceries and Provisions.

FRAUD

On the 27th June, 1866, MOTERWALLAH, a Printer, was convicted at the Supreme Court, Calcutta, of counterfeiting the Labels of Messrs. CROSSE & BLACKWELL, London, and was sentenced by Mr Justice Phair to, TWO YEARS RIGOROUS IMPRISONMENT

And on the 30th of the same month, for SELLING SPURIOUS ARTICLES

Bearing Labels in Imitation of Messrs CROSSE & BLACKWELL'S, SHAIK BACHOO was sentenced, by the Suburban Magistrate at Sealdah, to TWO YEARS RIGOROUS IMPRISONMENT!

CAUTION.—Anyone SELLING SPURIOUS OILMEN'S STORES, under Crosse & Blackwell's name, will be liable to the same punishment, and will be vigorously prosecuted. Purchasers are recommended to examine all goods carefully before taking delivery of them. The GENUINE manufacture of Messrs Crosse & Blackwell may be had from EVERY RESPECTABLE DEALER on Vancouver Island.

PICKLES, SAUCES, JAMS

&c. &c.: (Free from Adulteration.)

Manufactured by: CROSSE & BLACKWELL

PURVEYORS TO THE QUEEN, SOHO SQUARE, LONDON

CROSSE & BLACKWELL'S

Well known Manufactures are obtainable from every respectable Provision Dealer in the World.

Purchasers should see that they are supplied with C. & B.'s genuine goods, and that their articles are not substituted for them.

To insure thorough wholesomeness, their Pickles are all prepared in Pure Malt Vinegar, boiled in Oak Vats, by means of PLATINUM STEAM COILS; and are precisely similar in quality to those supplied by them for use at

HER MAJESTY'S TABLE.

C. & B. are Agents for LEA & PERRINS' CELEBRATED WORCESTERSHIRE SAUCE, and are Manufacturers of every description of Oilmen's Stores of the highest quality.

LEA & PERRINS'

CELEBRATED Worcestershire Sauce, DECLARED BY CONNOISSEURS

TO BE THE ONLY GOOD SAUCE.

CAUTION AGAINST FRAUD.

The success of this most delicious and unrivalled Condiment having caused certain dealers to apply the name of "Worcestershire Sauce" to their own inferior compounds, the Public is hereby informed that the only way to secure the genuine is to

ASK FOR LEA & PERRINS' SAUCE and to see that their names are upon the wrapper, label, stopper, and bottle.

Some of the foreign markets having been supplied with spurious Worcestershire Sauce, upon the wrapper and labels of which the names of LEA & PERRINS are forged, L. & P. give notice that they have furnished their correspondents with power of attorney to take instant proceedings against Manufacturers and Vendors of such, or any other imitations by which their rights may be infringed.

Ask for LEA & PERRINS' Sauce, and see Name Wrapper, Label, Bottle and Stopper.

Wholesale and Export by the Proprietors, Worcester; Crosse & Blackwell, London, &c. &c.; and by Grocers and Oilmen universally.
